Monday, December 19th

09.00 -- 10.00	Registration	
10.00 -- 11.00	*Manfred Krifka* More on approximative number words	
11.15 – 11.45	*Ido Ben-Zvi* Dynamic Situations: Accounting for Dowty's Inertia Notion Using Dynamic Semantics	*Julie Hunter & Nicholas Asher* A Presuppositional Account of Indexicals
11.45 – 12.15	*Andreas Haida* Dynamic Wh-Terms	*Luisa Martí* Donald Duck is back, and he speaks Spanish
12.15 – 12.45	*Philippe Schlenker* Transparency: An Incremental Theory of Presupposition Projection	*Cécile Meier* The Compositional Semantics for locatives revisited
14.00 – 14.30	*Scott Grimm* Agency and Case: A lattice-based framework	*Richard Breheny* Exhaustivity, Homogeneity and Definiteness
14.30 – 15.00	*Antonia Rothmayr* The helping-effect of dative case	*Sivan Sabato & Yoad Winter* Against Partitioned Readings of Reciprocals
15.30 -- 16.00	*Reut Tsarfaty* Connecting Causative Constructions and Aspectual meanings: A Case Study from Semitic Derivational Morphology	*Magdalena Schwager* Exhaustive Imperatives
16.00 – 16.30	*Christopher Piñón* Determiners in aspectual composition	*Ventsislav Zhechev & Sveta Krasikova* Scalar Use of 'Only' in Conditionals
17.00 -- 18.00	*Lawrence S. Moss* Natural Language, Natural Logic and Natural Deduction	

Tuesday, December 20th

09.00 -- 10.00

Gilad Ben Avid & Nissim Francez
Proof-theoretic semantics for a syllogistic fragment

10.00 – 10.30

Friederike Moltmann	*Michael Franke*
Comparatives without Degrees: A New Approach	How and how not to employ discourse relations to account for pseudo-imperatives

11.00 – 11.30

Rick Nouwen	*Tatjana Scheffler*
Monotone Amazement	Syntax and Semantics of Causal denn in German

11.30 – 12.00

Doris Penka	*Yurie Hara*
'Almost': A test?	Contrastives and Gricean Principle

12.00 – 12.30

Dag Westerståhl & Stanley Peters	*Torgrim Solstad*
Semantics for Possessive Determiners	Word Meaning, Unification and Sentence-Internal Pragmatics

Workshop on Language and Learning

14.00 – 15.30

James Cussens
Principles and Implementation of Inductive Parsing
Jacqueline van Kampen
Locality and the order of acquisition steps

16.00 – 17.30

Makoto Kanazawa
Semantics-Driven Learning of Lexicalized Grammars
Claire Nedellec
Semantics learning from corpora and background knowledge

Beth Evening Lecture

20.00 -- 21.00

Hannes Leitgeb
The Logical Structure of Cognition.
Lessons from Carnap's Logical Structure of the World

Wednesday, December 21st

09.00 -- 10.00

Sigrid Beck
A Second Time and Again

10.00 – 10.30

Petra Hendriks, Helen de Hoop & Monique Lamers
Asymmetries in language use reveal asymmetries in the grammar

Tim Fernando
Comic relief for anankastic conditionals

11.00 – 11.30

Daniel Hardt
Inference, Ellipsis and Deaccenting

Theo M.V. Janssen
IF logic as a strategic game

11.30 – 12.00

Jacques Jayez & Lucia Tovena
When `Widening' is too Narrow

Chris Fox & Shalom Lappin
Achieving Expressive Completeness and Computational Efficiency with Underspecified Scope Representations

12.00 – 12.30

Mats Rooth
Scope Disambiguation by Ellipsis and Focus without Scope Economy

Reinhard Muskens
Synonymy, Common Knowledge, and the Social Construction of Meaning

Workshop on Semantic Universals

14.00 – 15.30

Johan van der Auwera
Prohibitives: why most languages are not like Dutch
David Gil
Association: A Cross-Linguisic Experiment

16.00 – 17.30

Helen de Hoop
Case and strength
Ed Keenan
How much logic is built into natural language?
