

Call for Papers

19TH AMSTERDAM COLLOQUIUM

18 – 20 DECEMBER 2013

The Amsterdam Colloquia aim at bringing together linguists, philosophers, logicians, cognitive scientists and computer scientists who share an interest in the formal study of the semantics and pragmatics of natural and formal languages.

The 2013 edition will be held at the University of Amsterdam on 18–20 December and will be collocated with the 17th SemDial workshop (DialDam).

The 19th Amsterdam Colloquium will feature two workshops on Quantitative Data and on Modals; a special session on the Semantics and Pragmatics of Dialogue, jointly organized with the SemDial Workshop; and one evening lecture, jointly organized with the E.W. Beth Foundation.

Invited Speakers

Regular programme

- Paul Egge (CNRS, Paris)
- Kit Fine (New York University)
- Anna Szabolcsi (New York University)
- Yoad Winter (Utrecht University)

Workshop: Scaling up - Quantitative data in formal semantics and pragmatics

- Adrian Brasoveanu (UC Santa Cruz)
- Noah Goodman (Stanford University)

Workshop: More on modals - New empirical and theoretical perspectives

- Valentine Hacquard (University of Maryland)
- Angelika Kratzer (University of Massachusetts at Amherst)

Session on semantics and pragmatics of dialogue (jointly organized with SemDial)

- Matthew Stone (Rutgers University)

E.W. Beth Foundation Lecture

- John Horty (University of Maryland)

Submission of abstracts

The submission of abstracts will be handled via EasyChair. Details on the submission procedure are available at <http://www.illc.uva.nl/AC/AC2013/Submission/>. Please take note of the following *submission guidelines*: Authors can submit an anonymous abstract of two pages. The rules for submissions for the workshops are like those for the regular program. When you submit your abstract, you will be asked to provide a short 10 line summary clearly indicating subject matter and conclusions. Upon submission please indicate whether your work is to be considered for the general program or for one of the workshops. Submitting the same abstract for more than one category (general programme, session on quantitative data, session on modality) is not allowed. The organizers reserve the right to re-allocate accepted talks to a different category. The proceedings of the Amsterdam Colloquium will be downloadable from the AC website during the conference. Please note that the special session on dialogue follows the submission procedures of the SemDial workshop (deadline 10 September). For details, please visit <http://www.illc.uva.nl/semDial/dialdam/submissions.html>.

Important Dates

- 01/09/13 Deadline for submissions
- 01/12/13 Deadline for proceedings
- 20/10/13 Notification of acceptance
- 18-20/12/13 19th Amsterdam Colloquium

Organization The Amsterdam Colloquia are organized by the Institute for Logic, Language and Computation (ILLC) of the University of Amsterdam. The organizing committee of the 19th Amsterdam Colloquium consists of Maria Aloni, Ivano Ciardelli, Michael Franke, Peter van Ormondt, Ben Rodenhäuser and Floris Roelofsen.
